Backend Development: PHP, Laravel, CodeIgniter, Java, C# (Basic)

Database Management: MySQL, Supabase

Additional Skills: Search Engine Optimization (SEO), Responsive Web Design, Web Security Fundamentals

WORK EXPERIENCE

Freelance Web Developer **March 2026 - Present**

Project-Based | Remote

- Developed the Just A Tap NFC Cards Web System using Laravel and Tailwind CSS, with MySQL and Supabase for data storage. Deployed the system on Hostinger and used GitHub for version control.
- Built the Apexed Automation System using Laravel and Next.js, with MySQL and Supabase for data storage. Used GitHub for version control and Cloudflare for deployment.
- Created the Parang Beach Resort Website using WordPress and Elementor, customizing website pages and publishing the site through Bluehost hosting.

CODR **Calbayog, Samar, Philippines (Remote)**

UI/UX Designer August 2025 - January 2026

- Designed user flows, wireframes, and high-fidelity prototypes for a CRM system, supporting clear workflows and developer handoff.
- Created responsive desktop and mobile interfaces for AI, blockchain, and business platforms, including GhostWriter.
- Collaborated with developers, project managers, and stakeholders to refine interfaces and deliver consistent designs aligned with project requirements.

Elephant in the Boardroom **Oriental Mindoro, Philippines (On-Site)**

Internship - UI/UX Designer and WordPress Developer February 2025 - May 2025

- Designed and developed responsive website interfaces for Quisha's Kitchenette Restaurant using Figma and WordPress.
- Assisted with website redesigns and performed usability, accessibility, responsiveness, and cross-browser testing across desktop, tablet, and mobile devices.

EDUCATION

Bachelor of Science in Information Technology **June 2021 - June 2025**

Mindoro State University - Calapan Campus
